

# Belle Maison

A Tradition of Caring · Established 1974

In 1974, Belle Maison opened its doors to provide “a home away from home” to seniors in the Florida Parishes. Since that time, we have gone through many changes both in our physical plant and in federal and state regulations that govern our industry. Even with all of the changes of time, one thing remains the same at Belle Maison, providing premier nursing services. In addition, we offer a comprehensive rehabilitative therapy program, diverse activity calendar and expansive dining menu. Whether you or your loved one needs nursing services on a short or long-term basis we ask that you keep Belle Maison in mind.

## Welcome to *The Retreat*

*Renew. Revitalize. Rehabilitate.*

The Retreat is a private wing designated for our short-term, Medicare Part A residents that desire a thorough rehabilitation program in order to return home. The Retreat includes a newly designed Activity of Daily Living “apartment”. Residents enjoy spacious private suites and may entertain friends and family in the private lounge area and dining room. Our Retreat Residents enjoy low staff ratios; ensuring attention is given to every detail of their stay. The Retreat is accessible from the main parking lot at the east end of the building. Stop by for your tour today or call Phyllis Richard, Admissions Coordinator, at 985-264-5186 for more information.

## *A Success Story...*

Mrs. Trula Moore, 86, was admitted to The Retreat after sustaining a fall at home and fracturing her knee. Her main goal upon entering The Retreat was to receive rehabilitation therapy to walk again on her own. She met that goal in less than two months and was able to return to her home again.

When asked about her stay in The Retreat, she states, “I have met some of the nicest people and we have had the best times. I have nothing but praise for this place. Everything is beautiful here and the aides are above and beyond. The staff was excellent. I hate to leave the people but I’m ready to go home.”

Physical and Occupational Therapy also played a very important role in Mrs. Moore’s recovery. “The therapists are marvelous! Just super! I couldn’t have asked for better,” she mentions. She also feels that the therapy she received has definitely built up her body strength and has helped her become more independent.
